

Manchester N.H.

Aug 9, 1909.

George H. Plummer,

Dear Sir,

I received your letter and thought I must answer it.

There has no magazine issued since January and I cannot give you any addresses of the brethren who formed the New York College when last constituted. Perhaps Mr. Henry P. Giddens of H. Dove N.H. might as he is interested in those times.

Mr. Gould had been failing all winter and gradually

grew worse until May he took  
his bed and as the doctors did  
not know what the matter  
was so he was removed to the  
hospital. There they found out  
it was tuberculosis of the lungs  
which was fatal. He was  
removed his home where he  
only lived two weeks.  
He passed beyond on July  
19th.

These things are hard to pass  
through.

Yours truly

Miss Anne L. Gould
